

CANDYMINT™ CRABAPPLE

Malus sargentii 'Candymint'

Height: 10' **Spread:** 16'

Location: Zone 4, sun

Shape: Horizontal, wide-spreading branches

Foliage: Purple turning yellow-orange in fall

Notes: Deep carmine buds open to single pink blooms which become deep purple fruit which persist into winter. Leaves are a showy rich purple that turn a yellow-orange in the fall on attractive, brick red stems. Makes an excellent garden accent.
