

RHODODENDRON

Rhododendron

PJM

Height: 4-5' **Spread:** 4-6'

Location: Zone 4, sun to part shade,
well-drained, acidic soil

Shape: Rounded

Foliage: Evergreen, dark green, mahogany in
winter

Notes: One of the hardiest Rhododendrons
for the upper midwest. Masses of mauve flow-
ers bloom in spring putting on a spectacular
show. An evergreen with glossy green foliage
throughout the growing season, changing to a
pleasing purple in the fall. Needs acid, moist,
well-drained soil for best performance.

PJM COMPACT

Height: 3-4' **Spread:** 3-4'

Location: Zone 4, best in part sun,
well-drained, acidic soil

Shape: Rounded, dwarf, compact

Foliage: Evergreen, dark green, mahogany in
winter

Notes: Very similar to 'PJM' but with a
more compact, uniform habit, and larger
blooms.
