

POLYGONATUM (SOLOMON'S SEAL)

Location: Zone 4, part shade, moist, well-drained soil

Shape: Upright, arching, clump

Foliage: Rich green with narrow white margin, reddish stems

Flowers: Late spring to early summer

Notes: Solomon's Seal has graceful, arching, burgundy stems with lance-shaped green and white variegated leaves. Dangling, fragrant, creamy-white, bell-shaped flowers appear in late spring.
